

NATIONAL AWARD FOR THE SAMUEL WOOD TEAM

For the second year running we are so pleased to announce that we have won awards in the Real Estate Agency category for Shropshire and also the Marketing section for the West Midlands.

The prestigious awards have been running since 1995 and boast sponsors including Rolls Royce, Jaguar, Aston Martin and Bentley, highlighted this year by an awards ceremony held in London earlier this month.

Stuart Shield, president of the International Property Awards, commented: "I am delighted that the UK's estate agents, property consultants and lettings agencies, such as Samuel Wood and Company, have demonstrated such an extensive range of exemplary services."

"They have also embraced the very latest in new technology and managed to achieve the high levels of customer support that is vital to succeed both in this competition and in the property market."

Samuel Wood Partner Andrew Cadwallader said "We are thrilled to be recognised by such a respected international body and having won last year as well, we feel this second successive accolade will further inspire us to expand and better our services."

THE WINNING TEAM

We couldn't have done it without our fantastic team.

It is really rewarding to see a county business such as ours successfully competing at the same level as other much larger international companies and proves that Shropshire has plenty to offer in the property arena as a whole.

We now have a team of over 30 staff across the county and have offices in Shrewsbury, Church Stretton, Craven Arms, Ludlow and Oswestry, as well as being part of the Mayfair Office group based in London.
